1. Nature of Operations

Midas Gold Corp. (“the Corporation” or “Midas Gold”) was incorporated on February 22, 2011 under the Business Corporations Act of British Columbia. The Corporation was organized to locate, acquire and develop mineral properties located principally in the Stibnite – Yellow Pine mining district in Valley County, Idaho. The Corporation currently operates in one segment, mineral exploration in the United States. The corporate office of Midas Gold is located at 1250-999 West Hastings St, Vancouver, BC, V6C 2W2, Canada.

2. Basis of Preparation

a. Statement of Compliance

These condensed consolidated interim financial statements are unaudited and have been prepared in accordance with International Accounting Standard (“IAS”) 34 Interim Financial Reporting (“IAS 34”), using accounting policies that are consistent with the International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and interpretations of the IFRS Interpretations Committee.

b. Basis of Presentation

These condensed consolidated interim financial statements have been prepared on the historic cost basis except for certain financial instruments, which are measured at fair value.

The preparation of these condensed consolidated interim financial statements is based on the accounting policies consistent with those applied to the consolidated financial statements of Midas Gold for the year ended December 31, 2014.

These condensed consolidated interim financial statements do not include all of the information required for full financial statements and should be read in conjunction with the consolidated financial statements of Midas Gold for the year ended December 31, 2014, which are available at the Corporation’s website www.midasgoldcorp.com as well as under its profile on SEDAR at www.sedar.com.

These condensed consolidated interim financial statements for the three and six month periods ended June 30, 2015 and 2014 were approved and authorized for issue by the board of directors on August 7, 2015.

3. Accounting Standards Issued but not yet Effective

Certain pronouncements were issued by the International Accounting Standards Board ("IASB") that are effective for annual periods beginning on or after January 1, 2015. The Corporation does not expect the below standards to have a material impact on the financial statements, although additional disclosures may be required.

(i) Revenue recognition

In May 2014, the IASB issued IFRS 15 – *Revenue from Contracts with Customers* ("IFRS 15") which supersedes IAS 11 – *Construction Contracts*; IAS 18 – *Revenue*; IFRIC 13 – *Customer Loyalty Programmes*; IFRIC 15 – *Agreements for the Construction of Real Estate*; IFRIC 18 – *Transfers of Assets from Customers*; and SIC 31 – *Revenue – Barter Transactions involving Advertising Services*. IFRS 15 establishes a single five-step model framework for determining the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer. The standard is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Corporation is currently evaluating the impact the final standard is expected to have on its consolidated financial statements.

(ii) Financial instruments

In July 2014, the IASB issued the final version of IFRS 9 – *Financial Instruments* ("IFRS 9") to replace IAS 39 – *Financial Instruments: Recognition and Measurement*. IFRS 9 provides a revised model for recognition and measurement of financial instruments and a single, forward-looking 'expected loss' impairment model. IFRS 9 also includes a substantially reformed approach to hedge accounting. The standard is effective for annual periods beginning on or after January 1, 2018, with early adoption permitted. The Corporation is currently evaluating the impact the final standard is expected to have on its consolidated financial statements.

Summary

The Corporation acquired title to the Stibnite Gold Project through several transactions. All title is held at 100% through patented and unpatented mineral claims, except the Cinnabar claims which are held under an option to purchase agreement, and all of the Stibnite Gold Project is subject to the Franco-Nevada royalty described below. During 2012, the Corporation completed the acquisition of the patented Yellow Pine claims through the payment of its final option payment of \$100,000 in accordance with the Option to Purchase Agreement dated November 7, 2003; in total, the Corporation paid \$1,000,000.

The Cinnabar claims are subject to an option agreement dated May 3, 2011, whereby on payment of \$150,000 on signing and \$100,000 per year for six years paid on the anniversary of signing, the Corporation has the option to own 100% of the Cinnabar claims. As at June 30, 2015, two payments of \$100,000 remain outstanding and \$550,000 has been paid to date. At completion of the option agreement the Corporation would have paid \$750,000.

Title

Although the Corporation has taken steps to verify title to the properties in which it has an interest in accordance with industry standards for properties in the exploration stage, these procedures do not guarantee the Corporation's title. Property title may be subject to unregistered prior agreements and noncompliance with regulatory requirements.

Sale of Royalty Interest

On May 9, 2013, Midas Gold entered into an agreement with Franco-Nevada Corporation ("Franco-Nevada") whereby for gross proceeds of \$15,000,000 Franco-Nevada was granted a perpetual 1.7% net smelter returns royalty on any future gold production from the Golden Meadows Property and 2,000,000 share purchase warrants that are exercisable into 2,000,000 common shares of Midas Gold. The royalty is collateralized by a mortgage over the claims that are subject to the royalty. The warrants have an exercise price of C\$1.23 and expire in ten years. Midas Gold has a one-time right to repurchase one third of the royalty for \$9,000,000 before May 9, 2016. The Corporation incurred costs of \$565,540 associated with this transaction.

A value of \$886,000 was assigned to the warrants at the date of the transaction and has been recorded as a warrant derivative (Note 5). After determining the value of the warrants, the residual proceeds of \$13,548,460, net of transaction costs, have been offset against exploration and evaluation assets.

5. Warrant Derivative

The exercise price of the certain warrants and finder's options ("Finder's Options") are denominated in Canadian dollars, however the functional currency of the Corporation is the US Dollar. As a result of this difference in currencies, the proceeds that will be received by the Corporation are not fixed and will vary based on foreign exchange rates. Warrants and Finder's Options with an exercise price denominated in a currency that is different from the entity's functional currency are a derivative and are required to be recognized and measured at fair value at each reporting period. Any changes in fair value from period to period are recorded as a non-cash gain or loss in the statement of net loss and comprehensive loss. However, there are no circumstances in which the Corporation would be required to pay any cash upon exercise or expiry of the warrants or Finder's Options.

5. Warrant Derivative (continued)

In May 2013, the Corporation issued 2,000,000 share purchase warrants to Franco-Nevada (Note 4). The warrants are exercisable into 2,000,000 common shares of the Corporation at C\$1.23 per warrant for a period of ten years.

In March 2014, the Corporation issued 7,083,810 share purchase warrants as part of a private placement of units (Note 6). Each share purchase warrant entitles the holder to purchase one common share of the Corporation at a price of C\$1.20 for a period of two years.

In March 2014, the Corporation issued 410,750 finder's options as a part of a private placement of units ("Unit") (Note 6). Each Unit consists of one common share in the capital of the Corporation (a "Share") and one-half of one common share purchase warrant (each whole common share purchase warrant, a "Warrant"). Each Warrant entitles the holder to acquire one additional common share of the Corporation at a price per Warrant Share of C\$1.20 for a period of two years. Each Finder's Option entitles the holder to acquire one Unit of the Corporation at a price of C\$0.99 for a period of two years.

In May 2015, the Corporation issued 9,562,095 share purchase warrants as part of a private placement of units (Note 6). Each share purchase warrant entitles the holder to purchase one common share of the Corporation at a price of C\$0.60 for a period of two years.

All warrants and the Finder's Options are considered to be a derivative and are required to be recognized and measured at fair value at each reporting period. Upon exercise of the warrants or Finder's Options, the warrant or Finder's Option holders will pay the Corporation the respective exercise price for each warrant or Finder's Option exercised in exchange for one common share or one Unit of Midas Gold. Any warrants or Finder's Options exercised will be measured at fair value at the date of exercise and the associated non-cash liability will be reclassified to share capital. The non-cash liability associated with any warrants or Finder's Options that expire unexercised will be recorded as a gain in the statement of net loss and comprehensive loss. As noted above, there are no circumstances in which the Corporation would be required to pay any cash upon exercise or expiry of the warrants or Finder's Options.

A reconciliation of the change in fair value of the warrant derivative is below:

	Warrant Derivative	
Balance, December 31, 2014	\$	456,338
Value of warrants issued		762,805
Change in fair value of warrant derivative		(442,110)
Balance, June 30, 2015	\$	777,033

The fair value of the warrants and Finder's Options were calculated using a Black-Scholes valuation model. The weighted average assumptions used by the Black-Scholes valuation model are:

	June 30, 2015	December 31, 2014
Fair value warrants	\$0.04	\$0.05
Risk-free interest rate	0.6%	1.1%
Expected term (in years)	1.8	2.3
Expected share price volatility	61%	65%

Unlimited number of common shares without par value.
Unlimited number of first preferred shares without par value.
Unlimited number of second preferred shares without par value.

b. Issued during the six months ended June 30, 2015

Shares Issued for Cash

In May 2015, the Corporation closed a non-brokered private placement and a brokered private placement for an aggregate of 19,124,190 Units at a price of C\$0.42 per Unit, for gross proceeds of C\$8.0 million (\$6.6 million). Each Unit consists of a share in the capital of the Corporation and one-half of one common share purchase Warrant. Each Warrant entitles the holder to acquire one additional common share of the Corporation at a price per Warrant Share of C\$0.60 for a period of two years. The net proceeds of C\$7.5 million (\$6.1 million) were distributed between the common shares, C\$6.6 million (\$5.3 million), and warrants, C\$0.9 million (\$0.8 million), based on their relative fair values.

c. Issued during the six months ended June 30, 2014

Shares Issued for Cash

In March 2014, the Corporation closed a non-brokered private placement in two tranches for an aggregate of 14,167,621 Units at a price of C\$0.90 per Unit, for gross proceeds of C\$12.8 million (\$11.5 million). Each Unit consists of a share in the capital of the Corporation and one-half of one common share purchase Warrant. Each Warrant entitles the holder to acquire one additional common share of the Corporation at a price per Warrant Share of C\$1.20 for a period of two years. The net proceeds of C\$12.1 million (\$10.9 million) were distributed between the common shares, C\$10.5 million (\$9.5 million), and warrants, C\$1.6 million (\$1.4 million), based on their relative fair values.

In consideration for arranging a portion of the private placement, the Corporation paid finder's fees to certain arm's length parties consisting of: (i) cash commission in the aggregate amount of \$369,675; and (ii) a total of 410,750 Finder's Options. Each Finder's Option entitles the holder to acquire one Unit at a price per Unit of C\$0.99 for a period of two years.

c. Share purchase options

Under the terms of the Corporation's Stock Option Plan, the maximum number of shares reserved for issuance under the Plan is 10% of the issued shares on a rolling basis. Options may be exercisable over periods of up to five years as determined by the Board of Directors of the Corporation and the exercise price shall not be less than the closing price of the shares on the day preceding the award date, subject to regulatory approval. All stock options granted are subject to vesting, with one third vesting upon issuance and one third vesting on each anniversary from the date of grant.

7. Financial Instruments

The Corporation's financial instruments consist of cash and cash equivalents, trade and other receivables, trade and other payables, notes payable and warrant derivative. Cash and cash equivalents and trade and other receivables are designated as loans and receivables, which are measured at amortized cost. The trade and other payables and notes payable are designated as other financial liabilities, which are measured at amortized cost. The warrant derivative is designated at fair value through profit and loss. The cash and cash equivalents, trade and other receivables and trade and other payables approximate their fair value due to their short-term nature.

The Corporation classified the fair value of the financial instruments according to the following fair value hierarchy based on the amount of observable inputs used to value the instruments:

The three levels of the fair value hierarchy are:

Level 1 – Values based on unadjusted quoted prices available in active markets for identical assets or liabilities as of the reporting date.

Level 2 – Values based on inputs, including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the marketplace. Prices in Level 2 are either directly or indirectly observable as of the reporting date.

Level 3 – Values based on prices or valuation techniques that are not based on observable market data.

The warrant derivative is classified at level 2.
